Halloween 1992

Rutland Students Contribute To Traditional Holiday Festivities In Some Untraditional Ways.

This year Rutland students marked Halloween in a variety of ways. The Communications Class in conjunction with the Recreation and Parks Department ran a Hobgoblin Hike at the "Haunted Forest" in Georgetti Park Monday through Wednesday nights of the preceding week. The band went "Over the Rainbow" with their costume and display theme of "The Land of Oz" for the annual Halloween Parade. Meanwhile the Art Club sparked controversy with their "Fools Abusing the World" float.

Time For Hands-On Learning

Stafford Technical Center . . . Where careers Begin.

All over the country, students are turning to technical education. A proven path to success, applied technology training is the key to a world class career in the 21st century. The Stafford Technical Center offers a wide variety of educational experiences for individuals of all ages. A major goal of the staff and administration is to provide students with a positive learning environment in which to investigate and achieve new skills, knowledge, and attitudes necessary for a variety of technical areas, as well as an appreciation for the idea that learning is a lifelong process.

Time To Get Serious.

Many students at RHS don't know that there's a second campus downtown. In a storefront on Merchants Row a handful of Rutland students get individualized attention from teachers Greg MacClellan and Jamie Holt. These students split up school work with a job. Is it easy? No way! But in June they come back for graduation.

"There's always people here who can help, if not a teacher, maybe a student. We work with the elderly, serve them dinners, stuff like that. It's a great place. It's like home. It's happy here. Everyone gets along, no one hates anyone."

- Michelle Blaisdell

"I like being here because it's easier for me to get help than at the high school. There's not so much books going home and getting ruined. I can do constructive work here."

- Donald Rogers

Ode to A.P. History

It's 2:17 at the end of the day,
But a few of us have elected to
stay.
"It'll look good to colleges," said
they.
"Oh, of course!" quoth we in our
naivete.

With sad, longing eyes we watch
them all go:
Those happy-go-lucky seventh
period folks.
They laugh and they yell and its
clear that they know,
For an eighth period class they
have no need to show.

We fight through the halls trying
not to be late,
For this after-school club that
they call Period 8.
To go home after everyone else is
our fate.
We are not allowed out until ...
3:08.

If there were more classes it
wouldn't be bad.
But there's only a few eight clas-
ses to be had.
It seems that to stay after
school's not a fad.
It's true that for staying they
think us all mad.

We miss meetings and practices
in name of knowledge,
That hopefully will help us to get
into college.
Who knows but perhaps at the
end of the year,
In our hearts we'll look back and
think this class dear.

But for now we're trying as best
we can,
To learn and uphold the *Gospel*
of Fenn.

-Jason Hoffman & Co.

From Another Time Zone

Rutland High gets exchange students from 2 different continents.

(above) Manuel Parras, Yohko Kawahara and Rodgigo Sevilla (standing left to right) spent the year brushing up on their English language skills at Rutland High School. Added to their vocabulary were the current form of "NOT!" as well as our own Vermont "Jeezum Crow!" Manuel and Rodgigo both hail from Spain and Mr. Laliberte's and Mrs. Stenroos' students used every opportunity they could get to try out their own Spanish skills. Freshman girls were especially eager to get Manuel to translate for them in fifth period study hall. ("How do you say, 'Are you going out this weekend?'"") Yohko came to us from Japan where, she says, people are too conservative. (left) Oops! Nobody told Yohko about the sign day ban. Just kidding. Yohko has decided to gather up some rather unusual souvenirs of their visit. Let's hope that's not a faculty members license plate.

SADD

Students Against Drunk Driving is a group dedicated to providing positive alternatives to drinking. They are involved in numerous activities throughout the school year. They run the school store, Red Ribbon Week at the high school and are involved in the annual Helping Hands Carnival. This year they conducted two lock-ins as positive alternatives for students.

Need a pencil? Folder? How 'bout a t-shirt? The SADD Store gives students the opportunity to purchase Raider knick-knacks during the lunch hour.

Santasia

The communications classes out did themselves this year with a seasonal presentation of Santasia at the Lawrence Recreational Center. The original idea came from Bill Holland who presented the idea to the third period communications class. This class did most of the original coordination but it soon became clear that more help was needed. In true communications fashion everybody pitched in to pull together an outstanding display attended by students from all of the elementary schools in the city. In addition many of the art students along with Mr. Halford and Ms. Hinchey helped to draw and paint the decorative panels.

Just Wait 'Til Next Year!

To The Class Of 1993

*So it seems somewhere,
whether mistakenly or by choice
we stumbled forward and
finished high school. I suppose
we can all move on to fresh and
appealing conquests. Keep a good
grip on the past, as it will be your
loaded first in the future. We
have made friends and we have
made memories, now we must
make tracks. Life ahead is not one
downhill slope, but rather a
brutal incline with a multitude of
challenges. It can also have a
much better view. So let's give
the real world a try. Good luck,
class of 1993.*

One of the most thankless jobs a student can have is that of a class officer who actually does work. Often students seek election as a way to fluff up their resume for college or because they regard the whole process as a popularity contest. In four years the Class of 1993 has had a crop of hard workers.

Every day...

thousands of pilots and commercial airline passengers around the world depend on our employees and their attention to quality in the aircraft engines they work to produce. It's the people who work at Rutland's GE who keep us on top. We're meeting and beating the competition because at GE Aircraft Engines today's challenge is tomorrow's achievement.

*This is the time to remember
cause it will not last forever.
These are the days
to hold on to,
cause we won't,
although we want to.
This is the time
but time is gonna change.
I know we've got to move somehow,
but I don't want to lose you now.*
